PROGRAMME REPORT

A brief report on the training conducted during 06-11-2023 to 21-11-2023. Department of CSE AIET, Makavarapalem has organized "PYTHON PROGRAMMING" for students for 13 days. The details of the program are as follows.

Name of the Program	: PYTHON PROGRAMMING
Number of hours/days conducted	: 39/13
Name of the resource person	: Mr.K.Ramakrishna
Name of the Organization involved	: PIXELWIND TECHNOLOGIES
Number of the participants attended	: 30
Details of the topics covered	: Introduction Python is a dynamic, interpreted (bytecode-compiled) language. There are no type declarations of variables, parameters, functions, or methods in source code. This makes the code short and flexible, and you lose the compile-time type checking of the source code.

Outcome of the program

: It helped the students to learn SERVERSIDE CODE writing server-side code because it offers many libraries that consist of prewritten code for complex backend functions. Developers also use a wide range of Python frameworks that provide all the necessary tools to build web applications faster and more easily.
