The institution celebrates republic day on 26th January every year commemorating the adopting of Indian constitution and spreading the message that india is the largest democratic country in the world. This is a day to remind the students about the constitution of the country and the need to abide by it at all times. The celebration includes the hoisting of national flag and spreading a warm message of nationalism in a speech by the principal.

CREATING AWARENESS ON ORGANIC FORMING

The institution has come forward to create awareness on how to do organic forming. Following the registration and welcome of the farmers the following topics were explained and discussed:-

- 1) Disadvantages of chemical farming, conventional farming and its impact on life.
- 2) Information on Sustainable Agriculture, methods of Organic Farming and importance of Organic Fertilisers.
- 3) Information on the preparation of bio-pesticides.
- 4) Preparation of compost and the importance of water management.

The main objectives of the programme were to explain to the participants, about the ill effects of chemicals used on the crops in their fields. explained that when chemicals were used in farming they gradually reduced the effective production capacity of the soil and more and more chemicals had to be applied to produce the same output. Whereas Organic methods were ideal to maintain the level of soil capacity in terms of production.
