All this and more in our **FACE 360**

FACE 360 brings together everything that students need in one place.

To counter the change in recruitment trends, we created a product that systematically covers every aspect of all possible recruitment patterns.

In doing so it ensures students' all-round development and makes them immune to a sudden increase in difficulty or change in recruitment pattern.

Smart classroom = Trainers + Platform + Analytics

Our experienced trainers, assisted by our adaptive learning platform, ensure high-quality training.

Certain topics are better taught with human interaction. Our trainers are there to make such difficult topics seem easy.

Our adaptive learning platform differentiates slow learners from quick learners and takes them along different learning paths.

Students are encouraged to ask doubts which are then promptly addressed by our trainers. Our trainers also set the context for the upcoming lectures.

It also tracks the performance of every student across all topics. This enables our mentors to understand their strengths and work towards improving their weaknesses.
